

M1A1 Firepower Enhancement Program (FEP)

DESCRIPTION

The Firepower Enhancement Program (FEP) is a suite of upgrades for the M1A1 Tank. It will include a second-generation thermal site and a north finding/far target location capability. This will allow overmatch of threat FLIR capabilities, far target location/hand-off, improved situational awareness.

PROCUREMENT PROFILE:	FY00	FY01
<i>Quantity:</i>	<i>0</i>	<i>0</i>

OPERATIONAL IMPACT

The firepower enhancements program will increase the capabilities to detect, recognize, and identify targets, all-weather engagement ranges, crew situational awareness and the target hand-off capability

PROGRAM STATUS

The FEP is currently in phase 0. The IOC is planned for FY05 with FOC in FY08.
